

**Now you can live your life to the fullest**

# TRUST COMPANION LIFELINE AT YOUR SIDE

**IF YOU FALL OR NEED ASSISTANCE WE'LL SEND FOR HELP**

At Companion Lifeline, we provide emergency response systems, including our state-of-the-art technologies, along with our reliable local services to give you the independence you deserve. If an unforeseen event occurs, such as a fall, our medical alert services will be at your side every step of the way to ensure you'll get the assistance you need.

**Are you concerned or even scared if a fall occurs, that no one will be there to help?**

Yes, this scenario can happen, and many of our customers share this concern. That is why we rely on the best technologies and services, to closely monitor and then alert local authorities if an incident does occur.

**Don't know where to start or where to get additional information? Call Jeff.**

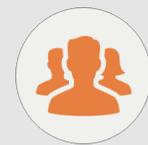

We understand that choosing the right medical alert system is a crucial decision. If you need additional information, then please call Jeff today. Jeff's 15 years of experience and knowledge will help you make the best decision.

**\$49.00** with auto alert

### NO LANDLINE REQUIRED

## Wireless In Home Service

Get the benefits of our standard medical alert service plus our medical alert pendant, that can call for help when you or your loved-one is unable to respond.

**\$39.00** standard

**\$49.00** with auto alert

### MOBILE

## Mobile Go Anywhere Service

Our GoSafe medical alert system offers 24/7 access to emergency assistance both inside your home and out.

**\$54.00** with auto alert

## GET OUR PERSONAL APPROACH THAT YOU DESERVE

When reaching out to Companion Lifeline, you'll talk to the owner of the company, Jeff Scheribel. Jeff's in-depth knowledge of Medical Alert Systems provides the information you need to make the right decision. Our services carry through our installation process as well. Many of our national competitors fail to assist your needs during the installation phase. These 1-800 companies will send your unit, along with an information packet, and then, you're on your own — this is unacceptable! At Companion Lifeline, we'll install and set up your services, while personally walking you through the entire process.
